

Fireseal Pull Tight Security Seal (APT4001-2)

- Fire Extinguishers
- Emergency Bags
- Drug Pouches
- Equipment Sterilisation ID
- Small Containers
- Suit Cases

The Fire Seal is a low breaking strain single use indicative pull tight security seal.
The Fireseal is perfect for when quick access is crucial.

Primarily designed for use on fire extinguishers to show the extinguisher has not been used between inspections, however this seal is perfect for many more applications.

Available in a plain and printed version
